10. 《天下的当代性》 赵汀阳

All under Heaven: The Tianxia System for a Possible World Order by Tingyang ZHAO (English, French edition sold: University of California Press)

In this succinct yet ample work, Tingyang ZHAO, one of the most distinguished intellectuals in China, provides a profoundly original philosophical interpretation of China's story and develops a Chinese view of the future world. ZHAO introduces what he terms a distinctively Chinese centripetal "whirlpool" model of world order to interpret the historical progression of China's *tianxia* (All under Heaven) identity construction. In this book, ZHAO forwards a compelling thesis not only on how we should understand China but also on how China understands itself.
